

# PHAGO

## PHAGO'SOLUTION

Hydro-alcoholic hand disinfection solution

- Antimicrobial action in 30 seconds
- Dermatologically tested
- Promotes a high level of compliance

### PRODUCT DESCRIPTION

PHAGO'SOLUTION is designed for hygienic and surgical hand disinfection as an alternative to simple or hygienic hand washing in the absence of a water source, during serial contacts, and before any aseptic procedure.

### COMPOSITION

Ethyl alcohol: (CAS N°64-17-5): 72%  
Moisturising and softening glycerine  
Cetyl alcohol with emollient properties

### PROPERTIES

pH (pure product) at 20°C: 5.0 - 8.0  
Density at 20°C: 0.843 - 0.860

### APPLICATION

Ready to use, PHAGO'SOLUTION should be used undiluted on clean, dry, healthy skin.

**Hygienic hand disinfection:** apply a small amount of product to clean, dry, healthy skin. Rub into hands, wrists, around nails, and between fingers for at least 30 seconds until completely dry. Do not rinse.

**Surgical hand disinfection:** after washing and drying hands, apply a sufficient quantity to keep hands moist for 2 x 45 seconds. Apply the hygienic hand-rubbing protocol, including the forearms, and leave to dry.

TP01: Biocidal products for human hygiene.

### STORAGE & HANDLING

PHAGO'SOLUTION can be stored for 36 months at room temperature, protected from light, before opening. It can be stored for 3 months at between 4°C and 40°C.

Products fitted with a pump or cap can be kept for 6 months after opening and until expiration for the 1L airless bottle.
